Assessment levels

Full data & analysis

Where we provide a map, data tables, assessment and recommendations (i.e. the full chapter structure).

Screen

Where we provide an overview summary of the data, but further reports are required (e.g. energy & transportation)

Alert

Where we identify a risk, but no further details are provided, other than a report recommendation (e.g. coal and other mining)

The Future of Environmental Searches: Smart. Seamless. Reliable.
